

# COMPANY'S SALES DIRECTION DASHBOARD FROM 2015 TO 2021

# COMPANY'S SALES DIRECTION DASHBOARD FROM 2015 TO 2021

e

Total amount spent on different directions of sales

## CHART REPORT

> This chart shows the total number of exports, imports and reimports (i.e returns) made every year and by the company. This highlights that a great deal of the goods of the company are successfully been exported with only few demands on imports which implies a great deal of success.

> This stacked bar chart sows that china has the highest number of Export and import from 2015 to 2021

> This shows that a high cummulative amounts are generated from export than from inport in both "All" and "Sea" means of transportation while import is a little greater than export in Air. This implies that other means, aside "Air", should be encouraged.

> This simply shows the year with thw highest revenue with 2019 and 2020 at 16%.

> Amounts spent on each direction of sales
