The background image is a photograph of a large cargo ship docked at a port. The ship is dark-colored with a red hull. It is loaded with many colorful shipping containers. In the background, there are port cranes and a large cargo plane flying overhead. The sky is blue with some clouds. The text is overlaid on this image.

DISCUSSION

From the visualizations, we can notice an obvious trend and a decrease in overall imports, exports and reimports as we approach 2020 which was when covid 19 was discovered and lockdown was imposed on the citizenry to prevent further spread of the virus. The pandemic hit the economy of all countries and the effects can be seen visually from the charts in the previous pages.

Also, 2015 had the highest sales in terms of both exports and total sales. Many companies have described 2015 as a very successful year in terms of sales.

A look at the visualizations show a gradual increase in sales in 2021 which means that by 2022 , the effects of covid 19 on sales would have been neutralized.
